Does your devotional life need a jumpstart?

Mighty men and women of God will attribute world changing accomplishments to the foundational teachings of God's Word applied to their lives. Application is the agent of change. It doesn't matter what we know about the Bible. What matters is what and how we apply the Bible to our lives. That in a nutshell is the game changer.

In this book you will find life application stories that are humorous and some quite serious, but the point is to show that God uses His Word in everyday people to do extraordinary things in sometimes quite ordinary circumstances. By knowing and applying scripture we will grow in God to do God sized things.

The eDevo series is written with a heart for God's people to help them discover, learn and apply the Word of God to make the ordinary into extraordinary.
